

K-Tube Has a New Product Number and Design Guide.

Did you know that everything you need to know about a K-Tube product's design can be found in the part number? We recently developed a guide that will help you translate what our product numbers mean. This guide will make it easier to know both what you have and what you need when you place an order.

Interested in the full Product Number and Design Guide? You can [find it here](#).

Due to its popularity, K-Tube Direct's free shipping offer has been extended. Enter the code **ZEROSHIP** when you buy tubing to receive free shipping on your first order.

We're giving you more support.

We recently signed contracts to work with two companies that will provide sales support and technical knowledge to our customers. This collaboration with Medical Engineering Resources (MER) and Medical Metals will help all three companies reach more clients. For more information about this collaboration, [check out our press release](#).
